

NUSTAT

Topical Hemostatic Dressing

NUSTAT Flex dressings help address patient blood loss through hemostatic fiber technology. The specialty fibers within the product result in a flexible dressing that conforms to the patient. NUSTAT Flex dressings are applied externally with mechanical compression to temporarily control bleeding.

INDICATIONS FOR USE

NuStat is a single-use hemostatic wound dressing applied externally with mechanical compression to temporarily control bleeding in:

- Lacerations
- Punctures
- Abrasions
- Surgical wounds (operative, postoperative, dermatological, etc.)
- Traumatic injuries

BENEFITS

- Fast - Quickly gain control of bleeding
- Flexible - Conforms to target wound area
- Durable - Will not tear when wrapped
- Cost Effective
